The God who clothes us

**Massive culture shift**

Hardcore pornography  
 First-time viewers – 9 years old  
 20-30% traffic from children  
 50% of all Christian families  
 62% of men in evangelical churches  
 65%-68% of teenagers

**Massive culture shift**

"The greatest threat to the cause of Christ in 2000 years of church history is pervasive sexuality and pornography,"  
 Josh McDowell.

**Massive culture shift**

"Today we have, by and large, **lost control of the controls** because an intrusive immorality is **just one click away** from our children. With just one keystroke on a smartphone, iPad, or laptop, a child can open up..."

**Massive culture shift**

...some of the worst pornography and sexually graphic content you can imagine. There's never been such access in history. "  
 Josh McDowell

300% increase in the chance of infidelity!

**The Original Plan**

Genesis 2:24–25 (NKJV) <sup>24</sup> Therefore a man shall leave his father and mother and be joined to his wife, and they shall become one flesh. <sup>25</sup> And they were both naked, the man and his wife, and **were not ashamed**.

## The Original Plan

No shame!!

## Entrance of sin

Genesis 3:7–10 (NKJV) <sup>7</sup> Then the eyes of both of them were opened, and they knew that they **were naked**; and they sewed fig leaves together and **made themselves coverings**. <sup>8</sup> And they heard the sound of the LORD God walking in the garden in the cool of the day,

## Entrance of sin

and Adam and his wife **hid themselves** from the presence of the LORD God among the trees of the garden. <sup>9</sup> Then the LORD God called to Adam and said to him, "Where are you?" <sup>10</sup> So he said, "I heard Your voice in the garden, and I **was afraid** because I was naked; and I **hid** myself."

## Entrance of sin

- Made themselves coverings
- Hid themselves
- Afraid

## Made themselves coverings

"Did God really say?" Doubts.  
"No you won't die." Lies.

## History

1973 the APA decided in a landmark decision that homosexuality was not a mental illness, removing it from the DSM.

5854 voted for and 3810 against removing homosexuality from the DSM list.

## History

Landmark decision, which was primarily a politically influenced decision, not a scientifically influenced decision and the rest of the mental health organisations fell like dominoes and so also the rest of the world.

## Shift in popular culture

Yes, it is “homophobia” which today is labelled a disorder and in the words of Dr Richard Isay, a leading gay psychiatrist, “homophobia... is a psychological abnormality. Those afflicted should be quarantined and denied employment.”

(A queer thing happened to America – Dr. Michael Brown, location 9759)

## “Born that way?”

“There are numerous theories about the origins of a person’s sexual orientation; most scientists today agree that sexual orientation is **most likely the result of a complex interaction of environmental, cognitive and biological factors.**

## “Born that way?”

“... In summary, it is important to recognize that there are **probably many reasons** for a person’s sexual orientation and the reasons may be different for different people.” Pro-gay American Psychological Association (APA)

(A queer thing happened to America – Dr. Michael Brown)

## “Born that way?”

“‘Born gay’ is an idea with a large constituency, LGBT and otherwise. It’s an idea designed to allay the ingrained fears of a homophobic society and the internalized fears of gays, lesbians, and bisexuals...”

## “Born that way?”

“...What’s most amazing to me about the ‘born gay’ phenomenon **is that the scientific evidence for it is thin as a reed**, yet it doesn’t matter. It’s an idea with such social utility that one doesn’t need much evidence in order to make it attractive or credible.” John D’ Emilio, gay activist

(A queer thing happened to America – Dr. Michael Brown, location 3962)

## “Born that way?”

“... the sexual act shapes erotic desire as much as desire precedes it.” John Dececco, Gay researcher and editor of the Journal of Homosexuality

*(A queer thing happened to America – Dr. Michael Brown, location 3962)*

## “Born that way?”

**What we get exposed to will influence or shape our desires.**

## “Nothing you can do about it?”

Remarkably, Prof Guo noted that: ... “a certain mutation in [the gene called] DRD2 seemed to set off a young man if he did not have regular meals with his family.” “But if people with the same gene have a parent who has regular meals with them, then the risk is gone.” Guo said.

## “Nothing you can do about it?”

“Having a family meal is probably a proxy for parental involvement ,” he added. “It suggests that parenting is very important.”

*(A queer thing happened to America – Dr. Michael Brown, location 3962)*

## “Nothing you can do about it?”

“Environmental factors certainly do play a major role in determining the decisions we make and the desires we experience, regardless of our genetic or biological predisposition.” Dr Michael Brown

*(A queer thing happened to America – Dr. Michael Brown, location 3962)*

## “Can homosexuals change?”

“Like most psychiatrists, I thought that homosexual behaviour could be resisted, but sexual orientation could not be changed. I now believe that’s untrue – **some people can and do change.**” Robert Spitzer, Pro Gay psychiatrist, long time hero of gay activism

*(A queer thing happened to America – Dr. Michael Brown, location 9354)*

## “Can homosexuals change?”

Thousands of ex-gay testimonies.

## “Can homosexuals change?”

**\*\*Randy’s story.**

(From “Can you be Gay and Christian?” by Dr Michael Brown, page 26)

## “Positive & Normal?”

The simple facts are that gay men are decidedly more promiscuous than straight men and that gay sex has decidedly more health risks than heterosexual sex, even in “monogamous” committed relationships.

## “Positive & Normal?”

*\*1978 survey – 28% white homosexual men in America claimed more than **1000** lifetime partners while 43% claimed more than **500**.*

## “Positive & Normal?”

*Comprehensive review by NARTH*

- Despite knowing the AIDS risk, homosexuals repeatedly and pathologically continue to indulge in unsafe sex practices.

## “Positive & Normal?”

- Homosexuals represent the highest number of STD cases.
- Many homosexual sex practices are medically dangerous, with or without protection.
- More than one third of homosexual men and women are substance abusers.

## “Positive & Normal?”

- Forty percent of homosexual adolescents report suicidal histories.
- Homosexuals are more likely than heterosexuals to have mental health concerns, such as eating disorders, personality disorders, paranoia, depression and anxiety.

## “Positive & Normal?”

- Homosexual relationships are more violent than heterosexual relationships.

“**Societal bias and discrimination do not**, in and of themselves, contribute to the majority of increased health risks for homosexuals.”

## Let God clothe you

Genesis 3:21 (NKJV) <sup>21</sup> *Also for Adam and his wife the LORD God made tunics of skin, and **clothed** them.*

## Gay and Christian?

Story of Christopher Yuan –

(From “Can you be Gay and Christian?” by Dr Michael Brown, page 28)

## Freedom to choose

“Biblical change is not the absence of struggles but the freedom to choose holiness in the midst of our struggles.”

## Such were some of you

**1 Corinthians 6:11** <sup>11</sup> *And **such were some of you**. But you were washed, but you were sanctified, but you were justified in the name of the Lord Jesus and by the Spirit of our God.*

## Such were some of you

1 Corinthians 6:9–11 (NKJV) <sup>9</sup> Do you not know that the unrighteous **will not inherit the kingdom of God**? Do not be deceived. Neither fornicators, nor idolaters, nor adulterers, nor homosexuals, nor sodomites, <sup>10</sup> nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners will inherit the kingdom of God.

## Such were some of you

**1 Corinthians 6:11** <sup>11</sup> And **such were some of you**. But you were washed, but you were sanctified, but you were justified in the name of the Lord Jesus and by the Spirit of our God.

## Conclusion

You are not a product of your past.

When the Son sets you free you are free indeed!

## Conclusion

God doesn't call us to heterosexuality as much He calls us to holiness. To Himself.
