PH.D. PHYSICAL CHEMISTRY  
CHESSMASTER (F.M.)

Dr Jonathan D. Sarfati B.Sc. (Hons.), Ph.D., F.M.  
*Creationist Physical Chemist and Spectroscopist (Australia)*

**Biography**

Dr Jonathan Sarfati was born in Ararat, Australia in 1964. He moved to New Zealand as a child and later studied science at Victoria University of Wellington. He obtained a B.Sc. (Hons.) in Chemistry with two physics papers substituted (nuclear and condensed matter physics). His Ph.D. in Chemistry was awarded for a thesis entitled 'Spectroscopic Study of some Chalcogenide Ring and Cage Molecules'. He has co-authored papers in mainstream scientific journals on high temperature superconductors and selenium-containing ring and cage-shaped molecules. He also had a co-authored paper on high-temperature superconductors published in Nature when he was 22.

Dr Sarfati has been a Christian since 1994. He has long been interested in apologetics, the defense of the faith, and was a co-founder

### Cells and proteins in dinosaur fossils

“Using new methods to peer deep inside fossils, the study in [9<sup>th</sup> June 2015] issue of *Nature Communications* backs up previous, controversial reports of such structures in dinosaur bones.”

A false-color image of a dinosaur fossil, taken with a scanning electron microscope, shows linear features that look like collagen fibers.
